VONGAI WITCHO

Profile

I am an aspiring and driven Computer Engineer with a passion for building innovative technologies that bridge the gap between software and hardware. My core interests lie in Web Development, Artificial Intelligence, and Embedded Systems — areas where creativity meets functionality. I bring a blend of analytical thinking, problem-solving, and a hands-on approach to every project I take on. Energetic, curious, and always learning, I thrive in collaborative environments and enjoy transforming ideas into impactful, real-world solutions.

EDUCATION

BA COMPUTER ENGINEERING AND MECHATRONICS

UNIVERSITY OF ECONOMY IN BYDGOSZCZ ,POLAND
CURRENTLY ENROLLED

CAMBRIDGE INTERNATIONAL ASSESSMENT ADVANCED LEVEL

KYLE COLLEGE ,ZIMBABWE
GRADUATED IN COMPUTER SCIENCE , PHYSICS AND MATHEMATICS
2021

CERTIFICATIONS

-Embedded Systems Bootcamp - **Udemy Academy**

-Google AI Essentials - **Cousera**

-SAP - **Great Learning Academy**

-Linux - **Great Learning Academy**

-Rasberry Pi vs Arduino - **Great Learning Academy**

-Team Skills and Leadership - **Asseco Academy**

-Creative Thinking and Problem Solving Training - **Asseco Academy**

-Team's Communication With Modern IT Tools - **Asseco Academy**

WORKING EXPERIENCE

QUALITY CONTROL

Internship(2023)

4PX EXPRESS (GORZOW , POLAND)
- Developed and implemented quality control processes to improve overall product quality.
- Ensured adherence to company and regulatory quality standards and procedures.
- Performed root cause analysis and corrective actions for quality-related problems.
- Prepared detailed quality reports for management, highlighting trends and improvement areas.

SERVICE OPERATOR & Tester (2024)

RECONEXT/TELEPLAN (BYDGOSZCZ , POLAND)

- Performed testing and analysis of acoustic equipment using custom Python programs
- Performed routine troubleshooting and resolved technical issues promptly for BOSE products
- Coordinated with technical teams to escalate and address critical incidents.
- Logged and documented service requests, incidents, and system updates.
- Provided user support and handled system-related queries.
- Monitored and maintained systems to ensure smooth operations and minimal downtime for Hp ,DELL ,BOSE and SKY products

-reference upon request-

Hard Skills

- Artificial Intelligence
- Operating Systems(Windows and Linux)
- Deep Learning
- Web Dev(Html,CSS,PHP with mysql & APIs, WordPress)
- IoT
- RasberryPi ,Arduino- ESP32
- Programming (Python ,Roboplus ,Java ,C++& C#)
- Proficient In Microsoft Internet Technologies
- Embedded Systems
- RTOS
- User Interfaces
- Programmable Devices

Soft Skills

- Leadership
- Teamwork
- Problem Solving
- Good Communication
- Time management
- Creativity
- Critical Thinking

HOBBIES

- Swimming
- Sketching
- VolleyballBall
